Jury Instructions: A Bibliography Part I: Civil Jury Instructions

Cheryl Rae Nyberg, MSLS
Carol Boast, MSLS, MBA

ABSTRACT. Pattern jury instructions are used by trial judges to explain the law to jurors in language that they can understand and that provide consistency from one trial to another. This bibliography contains references to 156 recent and dated compilations of civil jury instructions. An index to acronyms for civil jury instructions is included.

In instructing the jury in the law, a trial judge must phrase the instructions in language that is both understandable to the jurors and nonprejudicial to the litigants. Pattern jury instructions, also described as model, uniform, approved, and standardized, are carefully drafted tools designed to simplify this judicial duty and to encourage consistency among judges. Prepared under the sponsorship of bar associations and the courts, compilations of civil jury instructions have been published for almost every state and for the federal courts.

This bibliography of civil jury instructions is a comprehensive list of recent and dated jury instructions and as such builds on the work of others, including:

This is the first in a two-part series. Part II, *Criminal Jury Instructions*, will appear in volume 6 numbers 3/4 of *Legal Reference Services Quarterly*.

Cheryl Rae Nyberg is Assistant Law Librarian and Assistant Professor of Library Administration at the University of Illinois Law Library, Champaign, IL 61820.

Carol Boast is Director, Agriculture Library and Professor of Library Administration at the University of Illinois, Urbana, IL 61801.

- R. Nieland, *Pattern Jury Instructions: A Critical Look at a Modern Movement to Improve the Jury System* 55–116 (1979).

The Nieland book in particular lists several titles that are not verifiable in OCLC. Those titles do appear in the present bibliography with a note that such titles are taken from Nieland and were not verified. Many of the other titles listed were not available to the authors, but the above bibliographies, other printed acquisitions tools, and OCLC served as authorities.

The entries are arranged first by state and within each state by date, beginning with the most recent title. References to earlier editions of a title immediately follow the entry for the latest edition. Instructions for the federal courts, general jury instruction titles, and subject-specific titles (antitrust, automobile, business torts, damages, intellectual property, and medical issues) follow the state titles. An index to acronyms for civil jury instructions, keyed to the entry numbers, concludes this bibliography. A companion bibliography of criminal jury instructions will appear in the next issue of this journal.

An entry may include all or some of the following information:

- a. standard bibliographic information: author(s), title, edition, compiler(s), editor(s), place of publication, publisher, date of publication, collation, and, in the case of multivolume sets, the volume number in which civil jury instructions appear.
- b. update information: date of latest pocket part, looseleaf release, or supplement, derived from inspection of the item, information from the 1985 *Legal Looseleaves in Print*, or a recent publisher's catalog. Some entries for which this information was unavailable may be updated.
- c. call numbers: Library of Congress-assigned Library of Congress call numbers, Dewey Decimal call numbers, Library of Congress card numbers, and OCLC numbers.

- d. acronym.
- e. notes: other information about the publication.
