To those who think of investing, I have no hesitation in saying that money put into real estate in Olympia and Thurston county at this time would be a good investment. To those who wish to sell, I have to say that my connections in this line of business will en-able me to find purchasers for their property among the many strangers constantly coming and going through the country in search of chances for investment, who would otherwise know nothing of the opportunity. I have a large amount of city property, both improved and uninproved for sale. Also, some very desirable farms. Olympia, June 1, 1888.
