We would Pennsylvania district will smile challenged the Winlock boys to rapidly than she is doing. She needs a means of communication with the "hub city," and it would be a magnanimous thing if Centralia's citizens should come to the rescue and build a new plank road to Chehalis, so that the people there could could get into a good live town when they feel like it.-Centralia Chronicle.

Oh, what wiseacre is this turned oose on a suffering public. The "Cornish" men from the "borders of Wales" are just ordinary Vermicilli eaters from Italy, and they are now and have been engaged in reparing track and extending switches on the N. P. Every night they camp in front of THE BEE office, and sell this papar freely, openly and above board. Sample copies mailed free. Ad-Chronicle man to take a tie pass and come down and interview them about the "black diamonds" they are digging out. We know there are illimitable deposits of coal east of this city which will probably soon be dug out and give Centralia chance to buy cheap coal, but no railroad gang is working at it at present. We agree with the Chron-The Best School Desk in use, icle that a good road should be built between Chehalis and Centralia, as well as between Chehalis and other villiages. If Centralia means to adopt the name of "the hub," however, she should build the road herself. A hub without spokes is about as useless as the Indian's dog whose tail had been severed behind the ears. The suggestion about the good, live town is good, and we shall immediately take a day off in

visiting Mukilteo. ABOUT DAILY PAPERS. On several occasions THE BER publishers have been asked—"I Centralia can support a daily paper why not Chehalis?" To which we reply she Can, but will she? Chehalis has the population, wealth and business to support a daily better than her sister town. The only question is, has she the willingness. We should be only too glad to run a daily paper, but have no desire to do so at a loss. The Centralia News started out with patronage sufficient to pay expenses and claims to have a written guaran tee of it for six months. Such patronage is necessary. Almost every man having any kind of business at all in that town is paying his local papers from two to twenty dollars per month, and is satisfied with results. In Chehalis there are a number of business men who pay nothing to either paper, and an advertising bill of ten dollars per month would make many of them 'squeel." The BEE has no com-

plaint to make, but wishes here to remark that it is every day spending time and money to advertise Chehalis, and in that way giving a large amount of free advertising to men who have never paid us a cent. That's all right, and we expect it; but we also expect that when we print a daily, which we hope will be soon, that such business men, as well as others, will be ready to do their share towards its The water is so low in Lewis river that the wharf at La Center is high and dry, and the boats cannot get up to that lown. The Northern Pacific has a greater number of these sleepers in service than any other transcontinental line, their total equipment now amounting to 63 cars. It is clear that in providing for the comfort of the traveling public, the Northern Pacific, with its new yestibuled dining and sleeping cars and superior accommodations for second-class passengers, leads all its competitors.

A MASONIC MATTER.

The controversey which is general among the Masonic fraternity throughout the country respecting the Cerneau Scottish rite has culminated in the issues of an edict by Harrison Bingam, worshipful grand master of Masons of the District of Columbia, under the date of July 25, pronouncing the Cerneau organization clandstine and warning all members of that rite that they are liable to discipline from the grand lodge unless they at once withdraw from the Cerneau body.

The main reason for the edict, aside from other questions in the Scottish rite controyersy, is stated to be that the Cerneau org has established relation of amity and Masonic correspondence with the Grand Orient of France, the governing body of Masone in that grand lodge in the world, because the Grand Orient has stricken the

name of God from its rituals. Grand Lodges of this country, it is said, have an additional grievance against the Grand Orient of France because the latter persists in recognizing the negro grand lodges

of the United States.

ONTO THE FARE. A genuine "boom" is reported at and desired to pass through the to allow Chehalis anything. We Gray's Harbor. [This refers to the United States. The custom's official suggest that these two great railroad wind swept city and the city of wind. on the mountain side not to the real Gray's Harbor.] Boomers from Kansas, rustlers from Nebraska. razzoopers from Oklahoma and land sharps from southern California, and nothing but town lets and blocks is talked of. Near Hoquiam a new town is laid out and the talk is to build a couple of canals through the mud flats to get vessels up to the proposed wharf. The funny part of it is to hear men from Dakota who don't know the fore-castle of a yessel from the garboat streak, telking of shipping and of vessels and fathoms of water and "facilities" as glib as you please.—Astorian.

It is said that the national democratic committee or rather three wealthy members of it, are indulging in the luxury of paying unpaid campaign bills, amounting to \$120,to divide these expenses among
